Hammiian Guzette. FIRE SWEEPS AWAY ALMOST ALL CHINATOWN

Attempt to Burn Block Fifteen Clears Many Blocks.

THE PLAGUE DISTRICT A HEAP OF SMOLDERING RUINS

ATTORNEY AT LAW AND NOTARY Thousands of People are Homeless and in Need of the Charity of the Covernment and the People.

(From Sunday's Extra.)

Chinatown is no more. Here and there on its desolate expanse are a few buildings saved from the burning, these mostly on the edges of the tract nearest the white district. Practically speaking, how ever, Chinatown is a dead letter. It is what the prudent citizens of Honolulu have longed for, though they did not expect to have the Asiatic quarter go out all at once on a whirlwind of flame. But that was the choice of Providence and it is better so. Unhappily the great Kaumakapili church had to go too-unhappily from a historic religious standpoint, though perhaps not from a sanitary one.

Such a time of excitement as yesterday presented, perhaps Hono. lulu never before saw. Our rose-water revolutions were not in it with the harly-burly when the fire, started by the authorities in Block 15, near the Kaumakapili church, got the better of the Department. Then there was the kind of turmoil one sees only in great fires, or during volcanic menace or when an enemy's shells begin to come over a city's wall, presaging the death or ruin of the populace. From one end to another of Honolulu the wild news ran and men at once flocked to the common center where, in dense and excited masses, they watched first the lurid threat of the flames and then linstructions of the Board. Se their deadly achievement.

In Chinatown itself there was both the frenzy of fear and rage. The quarantined population ran into the streets, shouting and shricking and pressed so menacingly on the lines of soldiers that titizens ran with ax-helves to the aid of the military. Rumors of riot and bloodshed spread but these were not true. However they served to call out the Citizens' Guard. Marshal Brown with his police and Colonel Jones with his regiment took the excited coolies in hand and massed them on King street beyond Nuuanu. They stood there in a huddled multitude, women and children crying and men demanding to be let out. Steadily the authorities worked, among them President Dole, Minister Mott-Smith, the Minister of the Interior, Alexander Young, who was conspicuous for his energetic service; his assistant, Mr. Hassinger; President Wood, of the Board of Health; Attorney General Cooper and many others. These soothed the Asiatics and natives and, before the fire got dangercusly close, marched them under guard of troops and citizens to the Kawaiahao church and a near-by vacant lot.

The sight of these unhappy people was one long to be remembered. It looked like the march of the surrendered tatterdemalions of the Chinese army at Wei-hai-Wei. The poor people came trudging along disconsolately, loaded down with all sorts of queer traps. A yellow trunk burst open and some dice fell out. Another trunk had a small package of papers. Sewing machines and sacred relics from the Joss house were seen. There was an immense amount of bedding, perhaps containing germs of the plague, but to take it away, as President Wood said, might start a riot. The Chinese women with little feet and the aged, sick and crippled, came in carriages which were sometimes pulled, rickshaw fashion, by Japanese girls. Trucks, loaded to the guards with combustibles and inflammables hurried away from the fire and loads of hose and patrol wagons carrying police hurried towards it. Meantime the vista down King, Hotel and Beretania streets and Chaplain lane was one of boiling flames and smoke from the midst of which, as from some inferno of war, came the tremendous boom of explosions, some of these caused by dynamite with which the firemen tried vainly to destroy wooden buildings in the path of the cyclonic flames and some by warehouse stores of kerosene. One mass of 250 cases of gasoline blew up sending a pillar of flame to the zenith, the edges of which were as yellow as sulphur or gold.

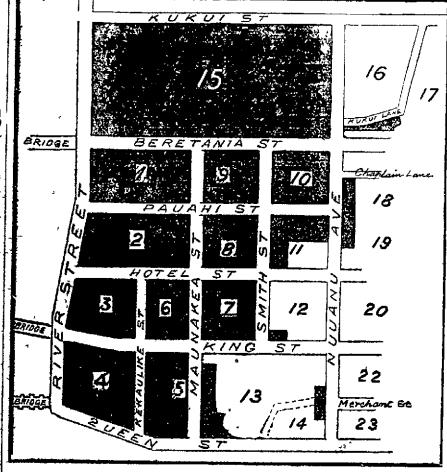

There was more than a chance, once, twice, perhaps oftener, that the Honolulu Iron Works would have to go. The fire came danger ously near it, menacing the shipping and the lumber yards as well Ships left the harbor as fast as they could. The U.S. S. Iroquois and the tug Eleu came to the rescue, however, with powerful streams from their fire pumps and the red wrath of the conflagration was stayed. It recoiled, hissing and sputtering to lick up the relics it had missed on its forward rush

When the sun went down last night one could see it set from Fort street. Everything was down between Nuuanu and the country Englineer and icremal on No. 1 came a roaring furnace. The tower,

beyond save blackened trunks of trees and the bare walls and tow ers of Kanmakapih. On the desolate waste fires like enormous benfites were blazing everywhere and lighting up the buildings on the outskirts which still held together. It was a melancholy sight though one could not but remember that it meant, perhaps the freedom of Honolulu from the plague.

\$~\$~\$~\$~\$~\$~\$~\$~**\$~\$~\$~\$~\$~\$~**\$~\$~\$~\$~\$~\$~\$~

THE PASSING OF CHINATOWN.

The burnt area now covers all the blocks except the ones marked in white. Whether these will be burned probably depends on the reports of the Board of Health and the relation they may bear to new plague cases,

between Kaumakapili Church and Nuuanu street and mauka from Beretania, should be given to the flames, as has been done with several other plague spots. The Fire Department proceeded as usual to carry out the with the entire Fire Department forces, and four engines, got to work at about 9 o'clock yesterday morning. A fair northeast wind was blowing across the city at the time, and, realizing the danger from a break away should the wind rise; one engine it io. 11 was plac-ed at the intersection of Maunakes and Beretania streets while the otners obtained connection with the water mains along Beretania street. It was intend-ed that the fire should eat its way back effects as could be collected, and in upon the Honolulu Iron Works, and against the wind toward Kukul street story frame structure back of the those rescued from Block 15 and the gave out on account of a broken conchurch was selected as the best situated for the application of the torch.

Fire Breaks Away.

All went well for about an hour, when the wind began to rise and changed about two points eastward. This combination carried the blazing embers upon the dry roofs of the closely packed buildings in the vicinity and Joss-house, Ewa of the church, and many other buildings near by were blazing. So high were the embers car-

Their nerotsm caused the ruin of their engine, for the buildings on all sides suddenly burst into flame, sweeping across the street and enveloping the engine itself. The two men in charge used every effort to safety, and in a short time the harbor drag their pet out of danger, but fate was filled with wee against hem; the engine was facing an anching the fire and the ground sloped in Navai Row. the same direction, so their best efforts proved insufficient to move it and the machine had to be abandoned.

Fleeing From Flames.

from which the occupants had hastily hose at the disposal of the Fire Demany cases returning three and four the structures in that vicinity. In a and with this object in view a two-times for more. These chattels and very short time one of quarantine station were placed on the nection, and the tug kept on with one vacant land left from Blocks 9 and 10 stream thereafter. in expected safety; but the sparks

and soon they, too, were destroyed. The Kaumakapiii Church cellars had effects from all districts, and included most of the clothing collected from the ping in the harbor and the warehouses various laundries in the quarantined along the waterfront, in a very short space of time the district. Everything was destroyed with the church. The Fire Department, as soon as it

was discovered that the flames were ried that many lodged right on the beyond control, shifted the position of It was found impossible to force the spread of the fire. Lines of hose were marked the course of the fire. Firebrands leaped across the street

from Block 1 and set fire to the roofs of buildings in the interior of Block 2. The spire was shortly afterward a Citizens and guards rushed through mass of flame, blazing beams fell the block to alarm any of the residents who yet remained therein, crushing in doors and windows and tearing away, where necessary, the dense mass of flames had communicated to the build- wooden barriers with which the inteings immediately Ewa of the church; riors of the blocks were built up. Few the roof of the building used as the persons were found in the rooms, the Chinese being too frenzied to remain long within the structures which were but the beginning of the end was in caught on fire, and, aided by the heavy sight. The fire now became too hot wind which swept down the streets and for the men to approach near enough through the alleyways the flames ate to be of use; the water pressure grad- their way into buildings on Hotel ually decreased, and almost in a mo-street, long before the Pauahi street side was blazing

Chemical House Goes.

At 12 o'clock the chemical engine house caught the fire creeping up the ne for into the air through the dense rear of the bullding and quickly enveloped the tower The firemen had saved most of their effects, the citizens gladly volunteering to remove them for the brave men who directed the hose streams. Finally the fire broke flercely through the rear windows and

built of wood, burned quickly, and at t o'clock fell with a crash, but without injuring any one When the tower fell the firemen were working further down Maunakea street trying to check the fire from spreading to the Walkiki side. The fire engine which had been stationed there was quickly run down to the corner of Hotel street, the hose being carried by citizens

In the meantime the fire had again made a leap and was burning flercely in Blocks 3 and 6, the flames being carried in great sheets across the narrow street. Dynamite was freely used in front of the fire, but the quantity in each case was too small to make any impression The loss of fire engine No. 1 was keenly felt at this time, as the streams, reduced to a minimum, made no impression whatever in staying the progress of the fire Citizens and guards made several rounds through the block, and every room was looked into to prevent any loss of life. Everywhere could be seen the evidences of hasty flight, little did the Chinese save of their personal property, for it was strewn through the block and over the sidewalks in wild confusion. Electric light wires began falling about the firemen; and kept the linemen busy coiling up the live wires watched every pole, and one lineman showed special bravery by climbing a pole while it was smoking from the heat to cut the wires It was a brave act and was applauded by the spec-

The frenzy of the Chinese and Japanese residents was pitiful to observe. They fled to the streets, lugging away at bundles too heavy for a man to ordinarily carry, but the keen excitement of the moment gave them the strength of two men Women with strained eyes and tears rolling down their cheeks clung to little coildren and babes, in wild excitement, searching everywhere to find a place of rafe-Few carried more than a change of clothing for their babies; none had the forethought to take a loaf of bread or a bowl of rice to eat. Every one was making a supreme effort to flee from the fire-fiend that destroyed their homes and household goods.

Shipping Threatened.

The fire quickly enveloped Block 2 in a roaring mass of flames, and then it was that the shipping began moving hastly out into the stream. The Board of Health had early notified the vessels to leave the wharves for their own was filled with innumerable craft seeking an anchorage farther out in the

All the vessels from the old Fishmarket to the front of Kekaulike street were moved out hastily, as it was feared that the flying embers might set them afire. The United States tug The high wind fanned the flames till Iroquois, under orders of Commander they took leaps of fifty and sixty feet Merry and Commander Pond, steamed along the doomed buildings of Block 1, up to the wharf below the Honolulu Iron Works and placed two lines of

The tug Eleu also moved alongside seemed to select every separate heap the wharf near the Iroquois and was soon pumping two streams of water. which were directed on the Maunakea been stacked with fumigated private street buildings. Both vessels rendered valuable assistance to the ship-

All Efforts Fail.

It was soon apparent that Block 2 could not be saved, nor could the progtop of the Walkiki spire of the church all the engines and devoted its whole mits was time and time again placed attention to an attempt to check the in buildings along the corners of Kekaulike and King streets, but without avail. No power could withstand the fury of the flames. No street seemed the direct course of the fire, but not too broad for them to leap; in some instances the heat caused a building front to burst into flames. The great difficulty throughout the entire day was the flying embers lighting on roofs of distant blocks. The combined efforts of bucket brigades failed to put out the fires caused in this manner. Buildings were cut down with axes, balconies cut his way, through the roof and ap- this point were ablaze from Maunakea rier of space between the surging fire torn away in a vain effort to put a barand the doomed structures on the harbor side. The fire raged flercely from all sides; the firemen were half the time enveloped in dense clouds of smoke, the blaze blistering their hands and skin, but they stood nobly at their posts, retreating foot by foot. Volunteers passed buckets of water to the men at the hose nozzle, drenching them constantly, but even then the heat was so terrific that the steam arose in white clouds from the men. The engine stationed at the corner

of Hotel and Maunakea streets retreated time and again from a fresh onset of flames, It was a time when the Roofs citizens thought nothing of clothes or comfort, and eagerly assisted the firemen in carrying the muddy hose along the street.

After Blocks 3 and 6 were in flames the scene down King street became almost indescribable. The entire district was covered with a heavy, pungent pall of smoke. The King street bridge was observed to be on fire and the heat drove the guards across to the Palama Nothing could be done toward stopping the flames, and soon Blocks 4 and 5 were raging. The heavy wind blowing steadily from the Pali carried the flames to the wharves, where great piles of lumber, lately discharged from vessels, were consumed.

From Church to Harbor. After 2:30 o'clock every block from

NEWSPAPERARCHIVE®

soon in flames. Nothing of value was an extent that no effort could be made saved. Great piles of merchandise had been hurriedly and frantleally thrown out upon the sidewalks and drays were busily engaged in carting it to places of safety. Most of it, however, was Individuals making up bundles of absolute necessitles were forced to abandon them and flee Chests, trunks, valises, boxes, hastily nailed up, were strewn all along King street toward Nuuanu, only to be consumed later as the fire gained ground

Block 2 (aught fire at 11:30 By 4 o'clock the fire had swept entirely through the four blocks below it leaving nothing but a smoldering mass of At Maunakea street a determined effort was made to hold the fire to the Ewa side of the street Block 8 which had already been partially burned, caught again, and the fire ale its way around to Smith and Hotel streets. The large brick buildings at the corner of King and Maunakea streets were no barrier, and all within the firm walls was soon blazing. Thousands of dollars worth of firecrackers, bombs and every sort of celebration explosives were stored in these buildings. The noise from the explosions continued for nearly an hour. When these began the firemen and people in the vicinity beat a hasty retreat, as it was known that many cases of kerosene were stored in the filled with inflammable material, were neighborhood, and fears were entertained that lives might be lost.

A Chinese Incendiary.

When the flames began eating into Block 2 and swept toward the Ewa side, a Chinaman was observed to enter a building near the corner of Maunakea and King and deliberately set fire to the place. His action was observed at once, and a crowd of indignant citizens rushed into the place and bore him off to the guardhouse. That the Chinese was not mobbed is a wonder, for the citizens had been working tooth and nail to save the premises and endeavor to prevent the fire's progress, and were worked up to a high pitch of excitement. It is generally believed that the Celestial became crazed with excitement for the time being and that his action in setting the building on fire was due to temporary insanity. However, it was not long before this building was destroyed and the flames leaped forward on their wild course toward the harbor.

The Honolulu Iron Works.

When it was known that the fire was beyond the control of the Fire Department, the employes of the Iron works began to prepare for the oncoming sweep of flames. Hose streams were played on every building in the vicinity, and the two hundred-odd men employed there formed a bucket brigade from the wharves into the buildings. The buildings and woodwork along Maunakea street were demolished long before the fire menaced Block 13. Two streams of water, one from the Iroquois and one from the Eleu, were passed through the works and the buildings facing on Mauna-kea were thoroughly drenched.

to prevent their progress.

Volunteers from among the citizens were made to remove several buildings along the Pauoa stream Several Hawailan cottages which were right in the track of the fire, and which would carry the fire into the next block, were speedily demloished and pulled away by ropes. Henry Waterhouse seemed the controlling spirit among the citizens and encouraged the men in their endeavors to prevent the fire from getting beyond control at Kukui street and passing into the Nuuanu valley blocks Every house in block 15 below Achi guards, speeding belated Japanese out of the fast burning section, but no persons were found in any of the build-

The fleeing propte had no opportunity to save their effects, being torced to hurry away by the great danger of being hemmed in by fire. The flames spread rapidly over that portion near Kukui and River streets, and, as a last resort, an endeavor was made to cut away the bridge over the Panoa stream; but before this could be accomplished the structure was burning at both ends and the workers were compelled to quit their dangerous posts The buildings, most of them new and fine food for the fire, and, as no water was available, everything was swept before it. Even the bucket brigades were compelled to desist for a time.

Brave Fight of Firemen.

work its way toward the corner that none of the buildings could be removed in the more thickly settled quarter. When the fire broke out on the corner there was no hose, and the buildings on the manka side of the street were soon smoking from the heat. many times catching fire, only to be quenched by the vigilant citizens. Finally a line of hose was brought into the street through a lane and then came a long wait for the water. The hose crew stood directly in the middle of the street directing the stream first upon the burning structures on one side and then upon the apparently doomed buildings on the other.

Finally the heat became so great the men were forced to beat a retreat to the mauka side of the street and direct their efforts upon the seething, roaring mass upon the corner, which rapidly spread up the street. Here the heat pecame so intense and blistering that the skin almost peeled off their hands and faces and their clothing began to smoke. Buckets of water were brought and the men were wet from head to foot repeatedly by the volunteers. Not once did the men of this crew wince or attempt to leave the post to which they had been assigned. They were gritty men; and their heroic work to save the rest of the town was loudly applauded by the citizens watching the fight for supremacy.

To these men is due the saving of the residence portion of the city immediately above Kukui street. They worked heroically and uncomplainingly in the fierce heat which drove the citizens far out of its blistering range. This crew was composed of Albert Smith, Ailola, S. Stanford, A. P. Mc-Donald and Tom McGiffen. When at last a wall fell in, a shout of relie went up from the big crowd congre gated to watch the unequal battle, for pare to leave, but upon the journey with its fall all chance of the flames leaping across the street was over.

before the contents could be moved out. hurnt church stood a large warehouse Citizens eagerly worked in the rear filled with kerosene oil, fireworks and of the buildings to prevent an explosion ail kinds of inflammable material. taking place, tearing away sheds and This building was given a wide berth fences. Beretania street to the harbor was block, and fanned the flames to such kui street, the citizens and guard drove the refugees back and held them. A suiging crowd of humanity it was, and eager only to escape from the heat and were given axes and determined efforts flames to some place where they could obtain shelter At Nuuanu and Kukui streets the Japanese committee held forth, rendering aid in queiling he people and keeping them quiet. Wherever the committee established Hs white flags with the red cross upon one and the Japanese flag symbol upon the other, the people rallied to the spot.

As the atternoon sped on the refutees became hungry, as none of them had had an opportunity since early morning to obtain a morsel to eat. The little children cried for food, but none lane was entered by the citizens and at that time was to be had. Bundles of every conceivable variety and contalming the most nondescript articles were lagged along. Some carried heavy trunks upon their shoulders, others had but a hand satchel, their all in the world after the destruction of their homes.

The fire thus rendered thousands of people homeless, without food, and with little else to begin life with again, except the clothes upon their backs. It was a pitiful sight to watch them as they looked with straining eyes, full of tears, towards their abodes, being destroyed so unmercifully. Extra guards were placed around the block from the Queen Hotel, and the people were then allowed more liberty, but were prevented from making a rush by the vigilant citizens' guards.

Along King Street.

The scenes of Kukui were repeated on King street as the fire began to work down toward the waterfront. Ce-So swiftly did the destroying element lestials flying from every direction seemed to pick out King street as their Mecca, and a dense mass of humanity soon filled the entire street from Maunakea to Nuuanu streets. A long line of citizens extending across the King street approach to the quarantine district prepared to meet with force any attempt on the part of the excited refugees to get out. Near Achi's office a strong military guard was stationed and behind these was a line of citizens standing in reserve. The Chinese huddled in groups along the sidewalks, but within half an hour after the panic began the street was jammed. The Chinese Consul and the Vice Consul moved among the excited people and endeavored to calm them. The Chinese believed at this time that the Board of Health had purposely burnt their houses over their heads; and it is understood that some rebellious spirits among them urged a rush on the guards; however, no clash occurred. By degrees all were moved toward

Nuuanu street as the fire approached, and by the middle afternoon, were taken in charge of by the committee appointed to find quarters for them. It was a long procession the first detachment found when they began leaving the district and marched along King street between files of armed guards, to the places selected for them. All the available boxcars at the Oahu Railway Company were made ready for those intended for the Kalihi detention camp. Judge Carter personally, looked after the moving of the melancholy processions which came through the lines, and perfect order ancholy

was preserved. Despite the great misfortune which had attended these people, most of them endeavored to maintain a cheerful mood. At first the Hawaiians were

ven to tears when directed to pretheir sorrow gradually left them, and when the most of them were housed on the Queen Dowager lands below Kaand between Kukui street and the waiahao and were fed, they became noticeable that the Hawalians' most valued keepsake, saved from the fire, was the gultar. Ornamented with its gay ribbons, and closely guarded from mishap, this favorite instrument bore quite a contrast to the amount of other belongings, which were carried along with them.

When the march began there were over 1,500 Chinese, Japanese and natives gathered near Nuuanu street. After their departure in detachments, the refugees from Kukui street and the intersecting streets were brought down to Nuuanu and passed out. By 4:30 p. m. this work was well under way, and before nightfall every quarantined person from the burned district had been provided with shelter and food.

Andrew Brown's Statement.

Andrew Brown, as Superintendent of the Waterworks, and Fire Commissioner who has had the special supervision of the burning of condemned houses, states that the reason the fire got away from the department, was first, that shortly after the fire began in the morning at which time there was little or no wind, a very strong northeast wind came up blowing directly toward Kaumakapili church; and steeple too high up for the streams of consult us. Any information relating water to reach it, and that having in to same will be freely given. turn set the roof on fire, it was necessary to take the engines off of the surrounding buildings in the attempt to save the church.

Removals From Chinatown.

Under the shadow of the clouds of smoke and fire the hordes of Chinatown stood in mute terror. Depressed by their long quarantine, when the flames, rushed wildly up one street and literal baptism of fire came, it found them without spirit. Beyond the conlating, tugging at any piece of furni-fines of the district, particularly along the main thoroughfares of King and on. Then another rush would be made Beretania, they beheld not only the back to the burning district in a mad guardsmen with bayonetted guns, but a mass of people which must have overawed them by its very numbers.

Hundreds of these citizens had volintarily offered their services to hold the Chinese and Japanese of the plague-infected district in check, before the unformulates could be tably conspicuous but in the volunteer army could be seer eas wieldy but

lutely helpless. His lower limbs were paralyzed, and when we used electricity he could not feel it below his hips. Finally my mother, who lives in Canada, wrote advising the use of Dr. Williams' Pink Pills for Pale People and I bought some. This was when our boy had been on the stretcher for an entire year and helpless for nine months. In six weeks after taking the pills we noted signs of vitality in his legs, and in four months he was able to go to school. It was nothing else in the world that saved the boy than Dr. Williams' Pink Pills for Pale People."-From the Crescent, Appleton, Wis.

Dr. Williams' Pink Pills for Pale People contain, in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfalling specific for such diseases as locomotor staxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia rheumatism, nervous headache, the after-effects of la grippe, palpitation of the heart, pale and sallow complexions, all forms of weakness either in male or famale. either in male or female.

Dr. Williams' Pink Pilis for Pale People are never sold by the dozen or hundred, but siways in pack-ages. At all druggists, or direct from the Dr. Wil-liams Medicine Company, Scheneciady, N. 7., 50 cents per box, 8 boxes \$2.50.

NEWS FROM

Ladysmith Losses Yet by the Western Dutch "Buller and Rhodes are prisoners' and "Two thou-Withheld.

METHUEN IS RECALLED

Cape Colony Boers in Open Rebellion - Roberts Arrives - British Making Ready to Move.

LONDON, Jan. 11.-The Durban cor respondent of the Standard, telegraphing Tuesday, says that 1,200 Indian stretcher-bearers started for the front the previous night and that their departure was regarded in Durban as in-

The War Office announces that the list of British casualties at Ladysmith last Saturday has not been received.

Frere Camp, January 10th, noon, has been received from General Buller "A Transvaal telegram gives the enemy's loss at Ladysmith on Saturday as four killed and fifteen wounded, and after this, as is admitted, they had endured a withering fire from six masked batteries and had been defeated at all points

"Natives here assert that the Boer loss in one command alone was 150 killed and wagonloads of wounded. The heaviest loss is said to be among the Free Staters, who were forced by the Transvaalers into the most dan-

Office issued. It makes not the slightest mention of the position or the doings of the British forces. It may be interpreted to mean that Ladysmith is safe, but it is more likely intended to prepare the British public for a terrible list of casualties.

A dispatch to the Daily Telegraph, dated Monday, January 8th, at noon, at Frere Camp, says: "Firing from the Boer positions around Ladysmith began early today. It still continues, but the cannonading is light and irreg-

lowing, dated January 9th, from its special correspondent at Frere Camp: "I hear on good authority that President Krueger sent word to the Boer headquarters asking why Ladysmith had not been attacked, and that the re-'We should lose too many

be put in the forefront. This hint was taken and the attack delivered. Presithat the Free Staters behaved better than the Transvaalers have done. At all events they managed to seize a hill. Later in the day the Transvaalers reattack amid the jeers of the Free Staters, who actually stuck to their position until they were bayoneted in the ditch. After this affair it is almost

break. Evidently the siege of Lady-smith is still maintained."

connoitered near Colenso on Saturday the Boers hurried from Springfield This supports the belief that Colenso was weakened to attack Ladysmith.

Methuen Insane.

NEW YORK, Jan. 11.—A cable to the Tribune from London, dated January 11, 6 a. m., says: Lord Methuen has been recalled to England. I learn this

It is learned that he was laboring under great mental excitement after the battle, of Modder river and that the War Office has considered it necessary to displace him, as he is evidently not in a condition to command troops.

Two members of his family are said to be weakminded. General Wauchope's last words quoted in yester-

Disaster to Suffolks.'

RENSBERG (Cape Colony), Monday. Jan. 8.—It is reported here, officially, straints upon their brutal desires." in reference to the disaster of the first battalion of the Suffolk Regiment, that only when the United States had pro-Lieutenant Colonel Watson marched the regiment in close column to the top of the hill at midnight. He assembled the officers and was addressing them just at daybreak when the enemy volleyed at a distance of thirty paces. The Colonel, his adjutant and two other officers were killed. The Suffolks, who had scarcely fired a shot, fled back to some one having shouted "Retirel" About 150, however, remained, lost

correspondent of the Daily Mail, tele-badly burned in several places.

graphing Monday, says: The Boer successes have been followed by a tremendous outburst of enthusiasm and Boer sympathy in the western part of the colony. Reports from Paarl say the whole district is made hideous at might by bands of young men parading in the villages and singing the Iransvani Volkslied, while the children are everywhere practicing the national songs of the republics. The following are specimens of statements believed sand Boers secretly sailed and captured Cape Town '

Dispatches to the Cape Times from Indare, dated January 6th, say 'All three of the Colonial Dutchmen, forming the deputation sent by Commissioner of Public Works Sauer to protest to the Boer commandant against the invasion of Cape Colony, are either prisoners awaiting trial for sedition or have openly joined the rebels. Synman, who accompanied Commissioner Sauer on a tour through the colony, now commands 1000 retels, who have seized Dordrecht."

The Times in a leader comments on the capture of Kuruman as an example of Boer rapacity. It says the place was unimportant as a strategical position. The Cape Town correspondent of the Daily Chronicle, telegraphing Monday, "The Boers assert that eighty

natives fought on the side of the British at Kuruman They say their object in capturing the place was to open the way for a commando to go south into the Prieska and Konhardt districts, where the Boers hope to foment rebellion. It is reported that the Boer leaders allow very burgher to return home one week out of every seven.'

Roberts on Hand

LONDON, Jan. 11, 4 a. m .- During the interlude of apparent military inactivity and official secrecy Lord Roberts and Lord Kitchener have arrived at the seat of war. It is assumed that their clear vision, supported by 30,000 fresh men who are due to arrive in South Africa within thirty days, will alter the situation and that the fourth month of the campaign will witness the beginning of victories for the British arms. They are not, however, expected to produce definite results for some days, but their mere presence will restore the shaken confidence of the men at the front in their generals.

Lord Roberts finds 120,000 men on

the defensive or watching for an opening. Lord Methuen's health, according to the Daily Mail, has broken down, and the Field Marshal may relieve him. Possibly some others will be relieved of important commands. There is certainly plenty of rank in evidence in South Africa. In addition to the Field Marshal, there are two full Generals, four Lieutenant Generals and twelve or fourteen Major Generals. There is an uneasy suspicion that when Ladysmith casualties are announced they will be disheartening and will partly destroy the patriotic glow produced by

General White's "victory." British Prepare to Move.

NEW YORK, Jan. 10.-A cable to the Sun, dated Modder river, January 8th, says. The British pickets are using billhooks in systematically cutting away the patches of brushwood in front of the Boer lines The work is risky, and is only done when a good opportunity offers. Thus far there have been no casualties among the men detailed for the work. The demolition of farmhouses between the forces has also commenced. These preparations are taken to mean that olutions of the committee of wholesale the British intend to make a move shortly.

NEGRO PROBLEM IN SOUTH.

Morgan Insists That White Race is Naturally Supreme.

WASHINGTON, Jan. 8.—Senator discussed at length in the Senate the that to attempt to force the black race into a social and political equality with race question in the South, maintaining the white race was to clog the progress fected. of all mankind.

Mr. Morgan's speech was directed against the Pritchard resolution, which condemns racial restrictions on suffrage and attacks the new Constitution of the State of North Carolina. He discussed the negro question in general, maintaining that there is a natural supremacy in the whites and a natural deficiency in the blacks, morally, socially and intellectually. Mr. Morgan said that no great body of white people in the world could be expected to and demoralizing as is created by negro suffrage in the South. In many places in the South thousands of negro concealment, were bought for \$1 each, and he continued:

"If Southern white men have falsified if not the better reason that they are day's dispatches have created a most acting upon the same law of self-depainful impression. man nature resorts to for the protection of homes and families from a race

This evil, he thought, would end vided a home for the negro race suited to their traits.

Shippers of Sugar Are

Rumors of Restriction at Coast Ports Are Not Supported -- Consignments Made as Usual.

Shippers of sugar who were interviewed yesterday by a reporter for the Advertiser expressed confidence in the situation, not partaking of the fears feit by other persons, not so well acquainted with the branch of trade, that the existence of a few cases of plague on the island of Oahu would result in great harm to the sugar industry. The shippers without exception do not anticipate that any sugar cargoes from Hawaii will be rejected at San Francisco or anywhere else, the precautions taken here being so strict that any sensible official on the Coast cannot do otherwise than admit the cargoes.

P. C. Jones said yesterday that no possible danger could result from the shipment of sugar even from this island, certainly none by shipping the product of the other islands. "Perhaps I am not so well posted as some of the actual shippers," said Mr. Jones, "but it seems ridiculous to think that any restrictions should be placed upon consignments of sugar from Oahu plantations. The plague has not appeared anywhere outside of this city, and the sugar on our plantations is therefore not infected. It is brought to the port on trains carrying quarantined crews and can be transferred to vessels at the railroad wharf without even having passed through the city or any infected locality. But in any event the sugar from the other islands could not in justice be rejected on the Coast or any-where else."

Clive Davies, of Theo. H. Davies & Co. said his firm was proceeding along lines that had always been followed, so far as sugar shipments are concern-"We know nothing about any intended restrictions upon consignments of sugar, and not having been adv.sed of anything of the kind, there is no reason to believe that the sugar ship-ments will be affected. Consignments are being made as usual."

THE CABINET MEETING.

Call for Council of State-Conference With Committees.

The Executive Council met yesterday at the usual hour. There were present President Dole and Ministers Mott-Smith, Young, Damon and Cooper. The minutes of the previous meeting were read and approved.

There were present Dr. C. B. Wood, Mr. F. M. Hatch and Dr. Emerson, members of the Board of Health, and Messrs. J. F. Humburg, J. Walfefield and C. Kaiser, a committee representing the merchants of Honolulu. These gentlemen presented resolutions passed at a meeting held earlier in the day and which are printed in full under the proceedings of the Council of State in another column.

After an extended discussion it was voted that the Council of State be called this afternoon to discuss the question of the recommendation of the Board of Health founded upon the resand that the Executive recommend to it the appropriation of \$200,000, to be used in settlement of claims that this work of stamping out the plague may

not be hindered or impeded. It was also voted that the Executive Council recommend to the Board of Health to advise the redoubling of ef-Morgan, Democrat, of Alabama today forts to remove the inhabitants from Chinatown, and that steps at once be taken to erect a rat-proof barrier

NOTES FROM EWA.

The New Mill In Operation -- Provisions Are Scarce.

The installment of the new machinery for Ewa mill was completed Monday night, and, after one or two trials. was found to work most satisfactorily. Cane-cutting was immediately begun, and the mill is now grinding day and quietly accept a situation so distressing night. The prospects for a large output + of sugar are very flattering.

Provisions are very scarce all along + the line, and prices continue to climb votes, in doubtful counties, with little up as stocks are becoming exhausted The plantation stores, as a rule, are holding the price of staples, such as rice, flour, etc., down to little above election returns, they have the stronger actual cost, in order to protect their employes, but absolutely refuse to make a sale to anyone not employed on their own plantation. Rice is plentiful. + but high, and flour is being doled out by the pound.

At a recent meeting of the managers, it was decided to allow no moving about from place to place of Chinese and Japanese laborers during the plague epidemic. All of the plantations have extra police patrolling their lands. and anyone unable to produce a "bango" or give a satisfactory account of himself, is promptly run off the place. Reports of "suspects" are rife, but on being run to earth, they invariably fail to establish their identity as plague

AGAIN THE BISHOP ESTATE

The Board > Health un overeit a dangerous nuisance yesteviay at Kukur and Nuumu stree s The visiting committee entered a rew building and bound as the ban dos state shallow cesspools cmilling a fearful stench. Near one of these plague pits an a dirty back room a babonic corpse thad been found that morning. The relation between the corpse and the cesspools was not perhaps as clear as the relation between the cesspools and the Bishop Estate but it was clear enough for all practical purposes

The Bishop Estate is prompt with excuses. These are among its stock in trade The trustees say that they cannot be held responsible because, forsooth, they had put a clause in their leases compelling the Chinese tenants to keep the premises clean Having done this the comfortable crustees probably went to sleep But landlords cannot evade either moral or legal responsibility for nuisances on their property by citing agreements with tenants. Both parties remain at interest and the greater moral responsibility, in the present case, rests with tae intelligent white lessors rather than with the ignorant yellow lessees

If, as many scientists believe, the plague germ is a micro-organism found dormant in nature and only needing a mursery of filth to bring it into maligmant life, what shall be said of the owners and estates that have permitted dangerous nuisances to grow up on their property and of the authorities who have failed to obey the plain letter of the law requiring them to condemn such nuisances and compel their abateament? These people are the human agencies of infection, taking their place in the pillory before the poor assiatics, who have lived in filth because they had to To be sure there were no sewers available but there might have been if millionaire estates had demanded them. At any rate these rich proprietors of Chinatown shacks could have readily provided excavators -of their own and taken some pains to entorce, and to assist in creating the shillty among their tenants to obey. the clauses in their leases requiring sanitation. But they held off and the plague took advantage of their neg-

There were no new cases of plague tania and Maunakea streets shows the than that of the Japanese who died impossibility to get any plumbing worst condition as to cesspools. Three at the corner of Nuuanu and Kukui done The inspector who reported the of these microbe-pits are together streets, and whose death was reported place was asked to look after the In yesterday's Advertiser However, with the quarantined people now being put to health gathered into one place of detention, the health physicians will be enabled to lay their hands at once upon any plague patient at the time sickness be gins. Prior to the wholesale destruction of Chinatown the efforts of the physicians were balked by the stubbornness of the people refusing to make known any case of sickness. The result was that when a call did come to the Board of Health office, only ue dead body was found, and the remaining tenants of the house were scattered to different parts of the infected district

Board of Health Meeting

The most serious and vexatious question now confronting the Board of Health is that of providing quarters for those people being released in scores from the quarantine stations Crowds of Chinese, lately discharged awaiting some good turn of fortune relief for his people, and often presented himself at the office of the Board of Health for conference with members upon the subject.

Several communications were received from the Japanese Consul in which he intimated that the Japanese erect buildings sufficient to house 3,000 among them, apparently, the able Min- the fact that 120,000 troops are now in quarantine. Their only request for Japanese, after their release from Government aid was for the grant of a piece of Government land on which to erect these temporary structures. The Japanese Consul asked that the Japanese who were about to be released yesterday from the kerosene warehouse be detained until an answer from the Government was received upon their request The Board of that he has been promoted too fast Health approved of the matter immediately upon its being broached to pass favorably upon the request without loss of time

At the Board of Health meeting held were present President Wood, George W Smith, F. M Hatch, Dr Day and

upon the necessity for a stricter quarautine of Honolulu today, favorable to the other Islands, than at any other time; and until word is received from Molokal as to the true condition of affairs there, no one will be allowed to leave for any other Island port. President Wood said, "I would rather bottle Henolulu up than give any possible opportunity for the plague to spread not be transmitted to them over the

utive that the Japanese Consul had communicated a plan of the Japanese merchants by which they proposed to erect a sufficient number of buildings to accommodate all the Japanese when released from quarantine, if Government land would be temporarily donated for the purpose The Board quickly approved of this course, as it relieves them of the pressure of finding shelter for discharged persons The matter was referred to the Executive, favoring the request for Government

it was reported that the Chinese Y, M C A, off Beretania street, was at present being used to house homeless Chinese, and as a result was becomyesterday and no deaths reported other ing quite insanitary, on account of the premises as far as possible, and prevent it from becoming a menace

Labor Bureau Opened

There are many Chinese and Japanese forced out of the detention camps, who, while free, find themselves in hard straits They thought they would find places to live in, but after making an appeal to their Consuls and after an effort to find lodgings, they are forced to return to the station from which they came. Battery camp cannot take them in again, the kerosene warehouse has had to send many out to make room for new arrivals, and the condition at Kalihi is still more congested.

The relief camps, one at Punchbowl street and the other at Kauluwela, can handle 1,500 persons, but this outlet is blocked at present because the necessities of the fire brought in 500 Hawallans, one of whom was taken with plague This is now an infected camp. Until this place can be cleared, clean: ed and a new start made it cannot assist in relieving the refugees from quarantine. It is hoped, however, that he regular detention camps will be at Kalihi and restored to the mother, able to accommodate the 260 persons stall left in the Punchbowl camp.

The plan has been adopted as part of the relief scheme to supply these homeless people with labor as soon as possible. The relief committee, composed of J. P. Cooke and Theo merchants had agreed on a plan to Richards, are peculiarly able to sift the claims of the applicants coming under their notice. The man enters the station without home or means; he is immediately tabulated, and his abilities and former employment scheduled. A possible place is suggested as an outcome of a labor bureau to be started today at the headquarters on Punch bowl street.

The inmate who will not accept reasonable offers for employment unworthy of further assistance, and is permitted to leave the place. On the other hand he can accept the offer and them, and the Cabinet will probably make way for a new inmate of the camp. Thus the tension is relieved all around; the detention camps empty inis none the less convincing Had the quarantine barrier more insurmount- there have been few instances when yesterday afternoon at 3 o'clock there offer honorable employment. The greatest need is a demand on the part of capital for some of this willing labor. There will be cooks, carpenters, yardındı, stewards, laundrymen and aborers. It will be charity as well as good business to take advantage of this demand for employment by putting into immediate execution some of the schemes for improvement of the city.

Does a man want to grade his lot? immediate operation the schemes which demand this class of labor

Attention must be called, however to this particular point in the situation, that the man does not want labor now so much as he wants lodging He will be glad of a combination of both. but has no use of the former alone. In many instances he has money; but it cannot buy him a home. Many private citizens have or can make accommodation for their laborers as well.

Applications for labor should be who, with Mr D H Case, will have their headquarters at the Punchbowl street relief station

inspection in full accordance with the instructions of the sanitary committee, but failure to render due asistance and acquiescence is highly reprehensible, and any hinderance or objection, with the object of prevention of the proper work of sub-inspectors, is, in effect, criminal and detrimental tothe public health, and inspectors are requested to furnish the names of such persons to the committee for publica-

A number of the sub-inspectors reported yesterday that they had personally given money to many of the people lately discharged from detention camps as they have been unable to secure lodgings.

The Kalihi Camp.

There were 3,250 persons in the camp yesterday afternoon, 250 having transferred from Kawalahao been Two hundred and fifty more wid be taken from the Church today, and it is estimated that on Wednesday. 500 more can be accommodated at the camp.

A Hawaiian baby which had become separated from its mother during the fire on Saturday, was yesterday found in the keeping of a Hawaiian woman who was detained at the Kerosene warehouse

New Military Camp

Companies A, C and F, under Lieut Col. McCarthy, were marched out of town yesterday afternoon and are now encamped about 200 yards mauka of the Kalihi detention camp.

It was deemed advisable with a view to the comfort of the men on duty at the detention camp, to form a new mulltary camp close thereto. The guards are often under arms for

nine or ten hours at a stretch before securing their liberty although they are actually on guard six hours only. It has been the practice heretofore to march the men from Kalihi to the Union Square camp, but the new arrangement will prove a considerable boon to the men and at the same time keep them handy for service in a possible emergency at the detention camp

New Odorless Excavators.

Upon motion of Mr Hatch, four new odorless excavators with complete equipment will be ordered from the coast by the Australia. A draft covering the purchase price will be sent with the order to insure prompt shipment.

Messrs. Humburg, Wakefield and Kalser, representing the Merchants' Committee, asked the Board for instructions relative to the disposition of Chinatown goods now stored in ware-Let him employ some of this labor Are houses They stated that tons of merthere inexpensive lodgings to be put chandise of every description was lying up? NEW YORK, Jan. 13.-A cable to the

ily augmented by Cape Colonists, and

the verge of being important. The fight "in the name of the Lord." British General Warren has crossed the Tugela a long way up with 11,000 men and is marching on the north bank. The Boers are massing for defense and President Krueger has called out all the burghers. He is believed to have 100,000 men. Since the announcement was made of General Warren's crossing no news has come from the front, the censorship being very strict. The Advertiser's news runs to the late afternoon of January 16th.

LONDON, Jen. 11.-The Standard summarizes the situation thus: "Well, the campaign has lasted three months. We have something like 120,000 troops in South Africa. With this huge army miles. distributed over the country we are still powerless to relieve three garrisons from investment. We have still to see large portions of both colonies vance line at Potgleters' Drift was in the hands of the enemy.

Summary for Three Months.

"We have driven the invaders back at no single point. We are actually further from the hostile frontiers than we were on the day that the ultimatum front at the western end of their long was delivered. The work which Mindsters believed could be effectually performed with 25,000 men has, not been done, has not , even been begun, by four or five times that number. Can any one fail to admit that this is evidence of a grave miscalculation of forces and facts?"

The Times in an editorial criticizing at great length the Government's conduct of the war, alludes to the "stupid and perverse mistakes" that have been made and demands that the "practice of the non-revelation of facts" be abandoned. It insists strongly upon knowing "the truth and the whole truth about the situation," and finds fault with Balfour's defense piecemeal

The Losses at Ladysmith.

LONDON, Jan. 11.—The Daily Mail plenty and game is abundant." says: "We learn that in the attack on Ladysmith last Saturday, January 6th, the British losses were fourteen officers killed, thirty-four wounded and over 800 non-commissioned officers and men killed and wounded. The Boer losses, we hear, are estimated at between 2.000 and 3.000."

Although the number of deaths from dysentery and enteric fever at Ladysmith has been published by the War Office since Saturday's fight, nothing has been given out regarding the losses in the engagement. The War Office asserts that it has nothing to give out.

LONDON, Jan. 11.-The Standard has the following dispatch, dated Monday, from Frere Camp: "Our patrols have searched both flanks of the Boer position. They found a large camp five miles east of Colenso, evidently in anmen were forced to spare their ammuticipation of a British attempt at a nition. turning movement."

Oom Paul's Proclamation.

PRETORIA, Thursday, Jan. 11 (via Lourenzo Marquez).-President Krueger, in the course of a stirring address just issued to the burghers, affirms that Providence is on their side, that succeed.

Reports from Colesberg represent the position there as favorable to the Republicans, but the British are concentrating for operations on a large scale. The official list of the Boer casualties in what is called the plat-rand fight, on Saturday, January 6th, (the attack upon Ladysmith), shows twenty-six killed and seventy-seven wounded. These figures are described as the

"first return." The embargo at Delagoa bay upon Transvaal imports is the question of the hour with the burghers. If this is not removed it is asserted that steps will be taken prejudicial to prisoners and allens.

LONDON, Jan., 16 .- A dispatch to the Daily Mail, dated Saturday, January 13th, from Lourenzo Marquez,

President Krueger has issued a proclamation ordering all burghers to the front. The Volkstem, the official organ, suggests that the moment the British cross the border the gold industry should be irretrievably destroyed.

Krueger issued a circular dated Jannary 8th to Boer commandants and hurghers, urging them to show more energy in the Transvaal cause. He quotes Psalm 33, verse 7, as God-given instructions to the burghers, and says that the British have fixed their faith in Psalm 83. He also quotes Psalm 89, verses 13 and 14, and asserts that he searched the Bible without being able to find any other mode which can slough, from which extrication is dif-

just as effective weapons, such as non bars, hatchers an occasional meat-axe and any number of handy clubs of all

To the credit of the Chinese and Japanese it can be stated that there was no need to use the weapons. Considering the intense excitement of the occasion, remarkable order prevailed, and when finally the authorities saw the necessity of raising the quarantine In order to save the lives of the residents of the district, and gave them the march was taken up in quick and

orderly style. It was a picturesque exodus, and Captain Parker was the Pharaoh who led the hordes. Astride of a foaming tions for feeding the hungry people who horse, he seemed to be everywhere. The Chinese and Japanese looked to his hand they started down the center of King street, guardsmen and volunteers on both sides of the line. With all the excitement there was time for tears on the part of many of the women who were forced to leave their homes. Many a mother, as she led her children along between the throngs of people, had tear-bedimmed eyes. The men without exception were examples of the stoicism that is the characteristic of the sons of Asia. The lame and the halt of the densely populated Chinatown came and were brought from their homes by the able-bodied, and on the backs of their brothers or in rude carts joined the long line. Women and infants were in many instances hurriedly bundled into vehicles, and in the absence of horses were drawn along by hand. Chinese women with deformed feet hobbled along in apparent pain, and the crush almost separated children from their

There was very little time for the quarantined people to gather their personal belongings. As the first of them came along King street the novelty of their appearance attracted great attention. Stout little Japs carried sewing-machines on their shoulders, and beside them brown infants bobbed up and down on the backs of mothers. Bundles of every conceivable description were carried, some large, some small, but everybody able to lug a parcel had his or her hands employed. Veritable hordes of Asia, they marched along, casting frequent glances back at the red tongues licking up their homes. But there was no wailingno loud complaint that might have made a bad situation worse.

Following the first batch of Chinese and Japanese-men, women and children, who were led out of the burning district down King street, came others from Beretania street down around Nuuanu street into King and hundreds of Hawaiians from toward the waterfront, all being led by guards into King street and along that thoroughfare down past the Executive building gates to the spacious grounds of Kawaiahao Church, at the corner of King and Punchbowl streets.

At Kawaiahao Church.

In through the wide gates they passed, the women and children being allowed to take possession of the big stone church building, while the men swarmed over the grounds. Guards were immediately placed along the works, and it is chiefly due to the astone wall surrounding the premises sistance given by the seamen that the wheels and all woodwork pot. Dr. Peterson responded to the daily carried that the engines can be turned over with the hand and that waiking a new center. The house in and reported that the engines can be turned over with the hand and that the boiler and carriages are all right; but that the wheels and all woodwork pot. Dr. Peterson responded to the call stone wall surrounding the premises, sistance given by the seamen that the and engine and boiler fittings will have and crowds of curious people filled up works were saved from destruction. to be renewed. He says these can be the adjoining streets.

presented a scene of great animation got to work at about 2 o'clock. She is No. 1 in first-class order again, from about 1:30 o'clock in the after- capable of supplying six streams, but noon, when the quarantined Asiatics owing to the shortage of hose, was first began to arrive there, until a late compelled to make shift with two lines hour last night. At 5 o'clock in the and her full strength was for a few afternoon the guardsmen and volun- moments directed upon these. The reteers who patrolled the outer edge of sult was disastrous. Three men were the church premises were relieved by directing the nozzle of one stream and Batteries R and K of the Sixth Artil- they were thrown about like rags unlery, U.S.A., who, in khaki uniforms til three comrades hurrled to their asand with rifles, took up the work of sistance These men managed to direct keeping the Chinese and Japanese the stream, but the force was too great within the church yard. The soldiers cleared the sidewalks of spectators and length was put in and the pressure reloungers and went at their task of patrolling like veterans.

Some of the most prominent men in the city volunteered to assist in look- tions ing after the unfortunates, and getting them settled. The Chinese Consul deserves great praise for his efforts, which went far toward bringing order out of chaos. Toward evening it was ascertained that 1,780 Chinese, 1,025 Japanese and about 1,000 Hawaiians were within the walls of Kawaiahao Church yard. These figures did not include the Japanese and Chinese wom- | Co. and did good work, en and children in the church building, estimated to number fully half a thousand.

Other Lodgments.

The Hawaiians were not detained at the church premises, but early in the inal occupants. evening were escorted to the Boys' Brigade quarters, over toward Kakaako, where they were given as comfortable quarters as could possibly be made ready upon such short notice. Still later in the evening 1,000 Japanese were removed from the church yard to the drillshed in the rear of the Executive building. This greatly relieved the congestion at Kawalahao church, J. F. Hackfeld donated the use of a warehouse, capable of housing 250 persons, and the Society for the Relief of the Destitute took charge of 500 more of the unfortunates in a building on Sou '

A Hospitable People.

The hospitality and liberality of the people of Honolulu was never before so much in evidence. Soon after it was learned that the thousands of homeless Chinese and Japanese were homeless Chinese and Japanese were at the Kawaiahao Church, transfer wagons, trucks and carriages began to arrive there in great number, with supplies of provisions. Tons of cooked rice and other victuals were received

through the gates, Mr. George Carter and a number of other gentlemen diecting the work of receiving and disributing the provisions. Mr. W C. Woedon acted as chief commissary inide the yard

Several hundred tents and any namber of utensils were received at the hurch early in the evening and disaributed among the men. A large awning belonging to the church was also brought into use. Inside the church building the women and children were well provided with mattresses and blankets. No army brigade was ever so comfortably sheltered and fed, in so short a time, as these thousands of Chinese and Japanese were looked after last night.

Queen Dowager Premisès.

Over 400 Hawaiians are housed in the buildings on the land belonging to A F. Cooke, on the premises formerly permission to move out under a guard, owned by the Queen Dowager. At the request of Prince Cupid permission was granted by Mr. Cooke for the charitable purpose, and the ladies of the Hawallan Relief Society began their preparareached the camp by 5 o'clock. The ladies who are directing the matter are him for the word, and when he waved Mrs. Cunha, chairman; Mrs. Bowler, treasurer; Mrs. George Beckley, secretary, and Mrs. Irene Brown, director They are assisted by Mrs. Paul Neumann, Mrs. F. W. Hassen, Mrs. Allau, Miss Davison, besides nearly fifty Hawaiian women who have volunteered their services.

C. S. Desky came to the quarters early in the afternoon and has taken charge of all the children. Rev. Alex Mackintosh, C. M. Hyde, Sam. Woods young men volunteered to assist in the Relief Society are allowed to mingie with the quarantined people directly, Mr. Theodore Richards was sent to the camp and personally passes in the food under the direction of Mrs Beckley.

By 7 30 last evening all the people had been fed, their supper consisting of poi and beef stew, and this being the first meal they had eaten since breakfast, they ravenously attacked the food. The Metropolitan Meat market supplied the camp during the afternoon with 192 pounds of meat, and orders have been given the same company to supply a like amount today. Blankets were provided late in the afternoon under the direction of Mrs. Irene Brown, several dray loads having been sent up from the wholesale houses. There are several buildings in course of construction on the premises, just roofed over and not entirely finished. They are suitable for a quarantine

camp. Prince Cupid is also personally attending the wants of 100 Hawaiians who are located on his property on King street opposite Kawaiahao church. They are using the house and yard formerly occupied by John Wise, and Prince Cupid has taken it upon himself to keep the Hawaiians there and provide them with every necessary. He also ordered two barrels of poi, which were left over after the supper at the Queen Dowager place, to the Kalihi Detention Camp, together with some blankets. A large number of Hawaiians were sent out there early in the afternon.

As soon as they had their evening meal the Hawailans became merry and spent their time in playing their guitars and singing.

Iroquios in Action.

The U.S. S. Iroquois had two lines The Iroquois was delayed over an hour The church and the adjacent streets and a half by the harbor lines, but she for the hose, and it burst. A new duced at the pumps, but the force of water was even then sufficient to shake the frame buildings to their founda-

NOTES OF THE FIRE.

1 yesterday But for his fortunate discovery these men would probably have perished as all the other occupants of the buildings near by had fled.

The office of the Independent caught fire rate in the afternoon and the efforts of the men were directed toward saving the press. A good deal of damage was done to the building, but the entire contents are uninjured except by water.

Mrs. Bianche Watkyns of Emma street, headed a large delegation of ladies during the afternoon, furnishing coffee to all the military guards, inspectors and firemen on Nuuanu from * Kukui to King street. They personally carried the coffee pots.

Before the fire had taken the church, but while sparks and embers were fiying in all directions, the Japs did good work on the houses in Block 1, being |* ably directed by one of the Board's inspectors named Yamada, who was indefatigable in this work.

It was Hoseman Mack who climbed up the rafters of the steeple at Kaumakapili Church. He carried a Babcock extinguisher with him, but could and Mr. Abercrombie of Hilo and many do no good with it on account of the heat and chemicals dropping back upfeeding the people there. As none of on his face from the nozzic. He had a very close call and got back just in time to escape falling timbers.

The Fire Department had a hard fight in keeping the flames from extending to the stores on King street, near Maunakea, between which a shack used as an oplum den was sandwiched. For nearly two hours, two streams of water were directed upon the shack but the place took fire in several places * notwithstanding all efforts to prevent

The telephone poles on King street were destroyed and Palama and Kalihi * are cut off from central. Superintendent Cassidy and a gang of men were busy last night restoring communica- | tion with the Kalihi Detention camp. |* The other lines will be fixed up today. | The men had a big piece of work on hand last night in fixing the wires to trees and houses until the poles can be replaced.

An altercation occurred between Judge Wilcox and a National Guardsman Saturday and the former was knocked down after being refused acmittance to the infected district after Judge went inside. The Guardsman had better keep out of Judge Wilcox's court of justice.

Hoseman Hugh of No. 1 and Driver Scully of No. 2 had a line of hose in the church. Their first intimation of the gravity of their position was conveyed through the hose. The water suddenly ceased to flow through the nozzle, and, surmising that something was wrong, they rushed out to find, the stens on fire and the hose burned. They got out in short order and not a moment too soon, as sundry burns and blisters testify.

Engine No. 1 is not lost to the department. Engineer Renear made a morning, is evidence that the plague is thorough inspection of her last night seeking a new center. The house in replaced from stock at the makers and three weeks or a month should see

Sing Chang's brick store on Maunakea, mauka of King street, was destroyed. The fire entered through open shutters at the back and communicated to the contents of the store. It is said that over \$8,000 in gold and silver coin is locked up in one of the large safes now burled under the burning debris. At about 9:15 last night a tremendous explosion from this building shook the earth and scattered tons of Brown has been given an order to debris over the top of the walls. DEATHS YESTERDAY

Min Chong, male Chinese baby, 8 months old Found dead yesterday morning by a Citi- ★ zens' Sanitary Inspector in al- * leyway on King street, opposite * postmortem showed undoubted evidences of plague.

Kekwano, male Japanese, aged 23 years. Discovered at * Kalihi camp at about 4:30 p. m. ★ or Health's orders. yesterday by Dr. Herbert, and ★ Howard as a plague case. The * man was in a wild delirium, and died at 10 o'clock last night. * The nurses at the hospital were nearly scratched by the delirious patient. Came originally from Block 15, Walkiki side of * Kaumakapili.

Mizuno Sakuichi, a male Japanese, 27 years old, died at 12 o'clock last night at the corner of Nuuanu and Kukui streets. The body was taken to the morgue, where it was announced that plague was the cause of death

SUSPECT CASE.

Kahakine, male Hawaiian, removed yesterday morning from Punchbowl street camp, Queen Dowager premises. Had arrived at the camp on Saturday afternoon, and had lived in Achi lane, Block 15. Discovered by Dr. Garvin

Three deaths and one suspect case yesterday constituted the health report, concerning the plague, Throughout! Saturday and until yesterday morning, so much confusion existed in the vaproducing the regulation pass. The rious temporary camps of the refugees matter was speedily settled and the that the physicians were unable to make the necessary rounds to detect cases of sickness. Only in extreme cases of sickness was the attention of the physicians attracted, and these mostly among the women. By yesterday morning order was brought out of the chaotic conditions brought about by changes of Saturday, and the corps of health physicians made a thorough examination of those quarantined in the new camps,

Of the deaths reported, the first, that of the Chinese baby, Min Chong, which was reported by one of the Citizens' sanitary sub-inspectors early yesterday pot. Dr. Peterson responded to the call for a physician, and upon making an examination found the appearances suspicious. The body was sent to the morgue, and the result was officially announced as a clear case of plague.

The source of infection is traced directly to Chinatown, the child's father for the last week having been working in Chinatown for the Board of Health handling merchandise. The only other occupants of the house were the father and mother of the child, and both were removed to the battery camp. The house is under guard, and Andrew

At the pest hospital Armstrong Quite a number of persons about Smith reported that the Japanese Kek-Chinatown yesterday state that many wano was one the worst cases under Chinese and Japs deliberately fired his care. Fatal Cases Saturday.

Kaaua, female Hawaiian, aged 45, taken on Thursday from kerosene warehouse; died early Saturday morning. Originally came from Blue Gate cottage on Merchant street block which has been burned. Body cremated.

Ahi, Chinese-Hawaiian, male, aged 20, found in Achi lane, at the Lewis place, Kamanuwai, Block 15. Case diagnosed as bubonic plague by Dr. Garvin. Body cremated.

On Saturday two plague deaths and no suspicious cases were reported. The destruction of Chinatown, which took all the denizens away from the formerly infected district, prevented examinations being made of the people until they were again housed. Just before block 15 was set on fire, the Chinese-Hawaiian was found dead on Achi lane at the Lewis place, and Dr. Garvin diagnosed the case as plague.

Kaaua, the Hawalian woman, who died at the pest hospital Saturday the Oahu railway station. sent to pest hospital by Dr. * HE ONLY REPEATS WHAT HAS BEEN SAID AROUND THE GLOBE.

It has been demonstrated repeatedly in every State in the Union and in many foreign countries that Chamberlain's Cough Remedy is a certain preventive and cure for croup. It has become the universal remedy for that disease. M. V. Fisher of Liberty, W. Va., only repeats what has been said around the globe when he writes: "I have used Chamberlain's Cough Remedy in my family for several years and always with perfect success. We believe that it is not only the best cough remedy, but that it is a sure cure for croup. It has saved the lives of our children a number of times." This remedy is for sale by all drug-gists and dealers; Benson, Smith & Co., Ltd., agents for H. I.

REMARKABLE LIBERALITY

at Kawaiahao Church--Conditions in Burnt District.

of Chinatown by the great fire Saturof Honolulu. The spontaneous offer of supplies of all kinds by the citizensthe open-handed liberality of the merchants, wholesale and retail, the donation of trucks and other vehicles for conveying supplies, affords an object lesson the like of which has never before been witnessed on the Islands.

In all the detention camps-Kawaiahao Church, Kalihi, Kakaako, Dowager Queen premises, kerosene warehouse and the drillshed, able men are in charge. Judge Alfred Carter at Kawaiahao Church, L. A. Thurston at Kalihi, Minister Cooper at the drillshed, A. L. C. Atkinson at the kerosene warehouse, and J. A. Gilman at the premises on Punchbowl street, near Queen, all have matters well in hand, and the prospect of a peaceful ending of the crowding and naturally uncomfortable situation is considered to be very flattering.

At Kawaiahao Church.

Kawaiahao Church yard yesterday presented a scene resembling a great flesta. There was not the jollity, but the numbers and picturesqueness were present, and around the gates and walls of the old church a throng of curious spectators lingered all day. They were not allowed to come close, however, the artillerymen in khaki kit keeping the sidewalk adjoining the premises clear. There was life and movement in and about the gates, where two or three guards were stationed, and where Mr. George Carter held forth all day trying to preserve the organization that so successfully took the horde of Chinese and Japanese within the premises through the night and day.

A commissariat of the first rank could not have done better with a nation's stores to draw from than those in charge of Kawaiahao Church did Saturday and Sunday with the three thousand Orientals under their charge. There was no lack of supplies, no lack of provisions, no lack of efficient management. The corps of commissary and sanitary volunteers, comparatively few in number, did nobly. As a result their task will be lighter while the people are under their care. "A ing has been conducted.

Among the chinese are a number of confirmed opium smokers. It was found advisable to provide these with a "den" where they could use the pipe and it was accordingly done.

Among the notable cash contributions made to the fund for the care of the homeless people from the burned district were the following: The II Estate, \$50; Mr. McLeod, \$10; Mrs. Frederick Macfarlane, \$50; Mrs. Cunningham, \$10; Mrs. Melrose, \$20; ladies of the Hawaiian Relief Society, \$85. The latter sum was used to purchase clothing for the Hawaiians at Kalihi camp.

Kalihi Detention Camp.

The number of people sent to the camp Saturday was 1,200.

A very large number of carpenters were at work yesterday and there will be accommodations for 500 more at the camp by this afternoon.

The completion of the administration and guard building at the Kalihi station was achieved yesterday, and the two hospitals, one for general sickness and one for a suspect detention station, were gotten well under way.

The duties at the Kalihi station were too much for any one man to attend to and a division of the duties was made Saturday.

Hereafter C. B. Wilson will confine himself to pushing the construction department and J. D. McVeigh will have charge of the management of the people and the sanitary condition and commissary of the station.

A telephonic connection was re-established at the Kalihi station by 6 o'clock Saturday evening, Manager Cassady having personally attended to the matter, this being the first telephonic connection being made after the wires were destroyed through China-

Dr. Howard has been transferred to the Kalihi station and will hereafter be the camp physician there, Dr. Davis assisting him. A third physician will also be immediately appointed, as he will be necessary to secure an inspection twice a day, which is required by the Board of Health.

Queen Dowager Camp.

There are by actual count 497 Hawaiians at the Dowager Queen camp, all the inmates having been transferred from the burned district. The camp is in charge of Joe Cooke. Ernest Thrum and Philip Lansdale are assisting in the general straightening out of the camp.

Contractor Paty rushed work yester- thing is in ashes. At Kaumakapili and Ltd., agents for H. I. NewspaperAACHIVE®

day on the buildings, which will con- in two other brick buildings the debris tain twenty rooms each, sufficient in is still smoldering. The chimes which the aggregate to accommodate 600 per-occupied the Walkiki tower of the sons. The buildings will be completed church lie broken or melted on the by tomorrow.

ground There was a birth at the camp Saturday night, the Chinese mother being confined almost immediately after ar rival at the camp

The Japanese Camp.

At the drillshed in the rear of the dred or more Japanese men, women and children are being cared for. They occupy not only the spacious drillshed, but the large building adjoining and the rooms on the Warklki side of Minister large structures. Cooper is in charge of the place, and was on hand much of yesterday directing affairs. A large force of carpenters was at work putting down floors Artesian Well for Kalihi--Chinese at for tents, and other workmen were exleavaling in the street, preparatory to laying a water pipe, the supply of water on the grounds being grossly inadequate

Here, as at Kawaiahao Church the The 6,000 or 7,000 Hawaiians, Japan-, number of spectators around the edges ese and Chinese, who were forced out of the camp was large. The concert given by the Hawaiian hand on the Executive building grounds during the day, are being fed and cared for in the afternoon drew a large number of permost creditable manner by the people sons to that part of the city, where the Japanese in detention gave added interest to the scene. The feeding of the Japanese was done on much are same plan as the Chinese were fed, and no trouble was encountered.

Further Distribution.

Eight hundred Japanese were taken from Kawaiahao Church to the drillshed and buildings in the rear of the Executive building, where Minister Cooper had charge of their detention. Four hundred and ninety-seven Hawalians were taken to the Dowager Queen premises. This left only the Chinese at Kawaiahao Church, of all the people who had been taken from the burned district Saturday afternoon. A census taken yesterday morning of all the Chinese left at the church showed the following: Children under 10, 375; males over 10, 1. 357; females over 10, 245; total, 1,977 Late yesterday afternoon the women and most of the children were taken in wagons and trucks from the church to the original detention camp at Kakaako. A number of men were also provided with accommodations at Kakaako, this arrangement relieving the situation at the church.

Of the nearly two thousand Chinese at the church the only case of sickness was that of an infant female, who, acsalt water pump breaking down. That cording to report, was suffering from the question of digging an artesian well should be considered; that the Baseop were among those removed to Kakaako in the afternoon. Several Chinese women at the church are soon to be confined, and it was stated that an arrival was expected some time last night. Every possible attention is being shown to the expectant mother, and if the youngster does not live to inch artesian well be immediately bor grow up strong and happy and with a heart full of gratitude for the Hono-lulu plague volunteers of A. D. 1900, it poses. Minister Young was appointed will not be their fault.

How Food Is Issued.

Yesterday morning Mr. Carter and his assistants formed a line in the churchyard, moving everybody back from the building in order to perfect the plans for distributing food and looking after sanitary matters.

The task of feeding the big crowd Jack McVeigh's ideas being adopted. was appointed a committee to carry it This provided for giving supplies to out. stitch in time saves nine," is the prin- gangs, instead of having food cooked. In order to guard against a possible ciple upon which the great undertak- for them. The latter plan was tried break down to the salt water flushing McVeigh plan is to distribute the food case of emergency. to lots of ten, two representatives of each lot coming to the gate with tickets. The men are then given a sauce-pan, pail, chopsticks, ten pounds of rice, four pounds of beef, four loaves of bread, and a small supply of salt. Each lot of ten is also supplied with firewood and bricks for an oven. There is plenty of artesian water on the premises. Distribution of food is made twice a day. Upon the return of the outfits clean, new tickets for the next supply are given. Mr. Adams and Mr. Taylor are in charge of the commis-sary department, and Mr. Gear is in charge of sanitary arrangements at the

> There are six outhouses on the premises, for the exclusive use of the women and little children. For the accommooughly disinfected and covered up twice a day. A gang of men is employed for the sole purpose of disinfecting the grounds, outhouses and

A notable contribution received at the church yesterday was 2,000 loaves of bread, given by Mr. P. C. Jones. It came in very handy and was greatly appreciated by the authorities as well as the homeless Chinese. Large contributions of apples and other accept able eatables were also received.

The Burnt District.

Thousands of sightseers yesterday visited the scene of Saturday's conflagration, and now that the dense smoke has passed away they obtained a clear view over the entire extent of the district burned. From the waterfront to Kukui street and from the river back to Smith street only three buildings escaped the general destruction. These three are situated upon Kukui street, and the presence of a small banana patch alone saved them. The walls of five brick bulldings, in-

cluding the church and engine house and the partially demolished frame and galvanized iron building occupied by the Independent printing office, stand out of the ruins, but even these will have to be pulled down. The flagpole at No. 5 engine house

was smoldering about half way to the top all yesterday and red flags placed on the three roads leading up to it warned approaching teams of danger. So complete was the destruction of half-burned timber remains; every- and dealers. Benson, Smith &

Over fifty safes of all sizes are observed throughout the district. Some of these have burst open and are empty, while others appear intact Men were employed with drays all of yesterday in collecting as many as could be got at and removing them to the sidewalk on Nuuanu street. A full dozen of bleycles can be identified among the rulns of kitchen utensils, sewing machines, crockery and the Ironwork of burned trunks, met upon all sides An occasional sickening odor suggests the near presence of some destroyed ammal.

Some idea of the intense heat of the fire may be obtained by a visit to Keknulike street, manka of King street. The firemen were unable to approach this locality, and no water was therefore played upon it. This road is burned brown as chocolate, and is hard as brick, the curbing of the sidewalks, made of lava rock, is flaked, and crumbles at a touch; iron pots are melted while crockery is intact.

A case of matches was hastily removed from the cellar at Kaumakapili just before the fire on account of its dangerous nature. Strangely enough, this case was the only article of merchandise saved from the building and from destruction. Although large quantities of other goods were taken out of the building, they were all destroyed later.

Superintendent Cassidy had several gangs of men at work all day Sunday in replacing the burnt poles along King street. Ten poles were consumed and 135 lines disconnected along this street. The Hawaiian Electric Company's men were also busy putting up new poles in order to supply the Kalihi camps with light.

Meeting of Camp Committee.

Minister Young called a meeting of this committee at the Kalihi Detention camp yesterday afternoon at 3 o'clock. There were present Minister Young, C. B. Ripley, L. A. Thurston, Dr. Geo. Herbert and J. A. Kennedy. By invitation President Dole and the newly appointed Finance Committee of the Board of Health, C. M. Cooke, J. B. Atherton and T. R. Walker, were

Minister Young stated that the first subject for consideration was the water supply; that the increase in the number of people had rendered the resh water supply insufficient and there was always the possibility of the Estate, which owned the land, would deal liberally with the government in the matter and would probably pay for one-half of the cost of the well. The estimated cost of a well and appurtenances would be not to exceed \$3500 or

It was unanimously voted that a 12 ed at or near the camp to be used both a committee of one to immediately con-

In view of the urgent necessity for immediately increasing the fresh water supply and the fact that it would take several weeks to drill a well while it was desirable immediately to remove people from the other temporary camps about the city to Kalihi, it was voted to lay a second pipe from King street to the camp, the same to be three was accomplished without trouble, inches in diameter and Minister Young

first, but a wagon load of rice that had | pump, L. A. Thurston was appointed been cooked for the Chinese was re- a committee of one to secure the refused, and had to be carted away. The fusal of a second pump to be used in

The committee then immediately inspected the camp as well as the adjoining camp known as Kalihi Deten-tion Camp No. 2, which is being constructed for white and other families who desire and are able to pay for separate quarantine quarters.

SEWING BEE.

A PERSISTENT JAP

Result of an Attempt to Pass a Guard at Kerosene Warehouse

An altercation occurred between a Japanese and a guard at the kerosene warehouse yesterday in which the Japamese came out considerably the worse for the scuffle. The Japanese came to the gateway and demanded entrance, which the guard naturally refused. The Japanese finally became so persistent that the guard ordered him away from the place. Eventually the two began J Leyds, the Minister Plempotentiary scuffling and the Japanese was thrown heavily to the ground. The police station was telephoned to and the bellicose Japanese was later locked up.

An excited Jap visited the Japanese Consul last evening and gave that functionary such a graphic account of the killing of a Japanese by a soldier, claiming that the latter had run a bayonet into the Jap, that the Consul drove post haste to the Health Office to learn the particulars. When the real facts were ascertained, the Consul expressed his disgust that one of his countrymen should have so warped the facts of the case, and he left the Health Office very thuch chagrined.

Views of a War Expert.

NEW YORK Jan 16 -A dispatch to the World from London says. Mr paper with the best information obtainable, says this regarding the report that General Warren had crossed the Fugela river:

General Warren, with his division and something more was yesterday five miles to the northwest of Springfield, where General Buller then had "Haw, sp Fort George, Morse, for his headquarters Consequently the censor at Durban has been having a little amusement with the local press for the purpose of deceiving any spies the enemy may have and then confus-

ing them. "All the inferences drawn from any telegrams which have so far reached us must be erroneous. Once and for all Buller's movement is by the left There he has strength His plan is to turn the hights north and northwest of Colenso, and thus compel their evacnation, and then to attack any Boers left between him and General White and make connection with General White's force

"After that he may keep the Transands, in continuation of voyage from vaalers on the run through Natal to Laing's Nek or Charlestown, or he may decide on separating the Free Staters from the strong men of war and make with his main force, for Harrismith and Bloemfontein

> "News of the first success of these operations should reach us about Wednesday or Thursday.

'All that can be said actually is that General Buller up to yesterday was From San Francisco, per T K. K. still at Springfield. General Warren was on a hill nearly midway between

"General Buller can spare a suffiand Mrs. W. B. Utrecht and Vryheid districts, unless munications and find themselves at or

> The attacks on the War Offica and the information bureau have need renewed in several quarters. It is declared here that when Winston Churchill first arrived in Natal he had maps of the northern portion of the colony, procured from foreign sources which were better than any possessed them to the commanders. The news Office have been operating with a large scale map of Northern Natal Glencoe and Ladysmith became criti-

Dr. Leyds Talks,

NEW YORK, Jan 16 -A dispatch to the World from Brussels says W of the South African Republic accredited to all the governments of Europe. said today "Remember, it is England, not we, who is mainly responsible for this bloodshed and who has repulsed all outside efforts to bring

about a suspension of hostilitles "As for a refusal of an exequatur to Mr Hay (United States Consul on his way to Pretoria to replace Mr. Macrum), that rumor appears to come through what are called Boer agents in America. Let me state that no such person exists. No man in America has any authority to speak on behalf of the Government at Pretoria. As for the report itself I can neither confirm nor deny it, but I know of no reason which would lead the Government at

Pretoria to take such a decision." Taking up a chipping from the Westminster Gazette of London, accusing the Boers of firing upon surgeons and ambulances on the fields, Dr. Leyds continued.

"This extract from the Westminster Gazette has come under my notice I declare without hesitation that the Boer soldier does not exist who would knowingly fire on a man employed on an errand of mercy.

'That mistakes occur on both sides s too evident from the reports published from time to time of alleged cruelties which a fuller examination has proved to be the result either of a misunderstanding or of ignorance of Canton the rules of warfare. But the numerous accounts in the English press of ashore on Newfoundland Many lives the chivalry of our men are in themselves refutation of such charges

"One report says the Boers were made to dig their graves before being tied to a stake for execution. If this 18 *rue I can only express my horroc and indignation. Such acts of barbar s must him eforth sully the anna-

of Pulsh warfare War News Notes.

RUSSIA S MENACING ASPECT. Advancing in the Far East and or the Indian Frontier.

\ A \ COUVER (B. C.), Jan. 11.-A nest or opinions of the principal Chinese and Japanese papers received today by the steamer Empress of Japan thirteen days from Yokohama, at 1 23 p m indicates that Russia is unmistakably revealing her intentions in the Far The China Gazette says that, taking advantage of England's prese-Williams, the war expert of the Morn-Russian Government, through its Coning Leader, writing for this morning's sun at Hankow, has revived its claim to the Jardine-Metheson land, making a demand for the property in the most peremptory fashion.
The Russian Consul claims that the

que tion of the disputed ownership of the land has been absolutely decided in favor of his Government, and the has announced his intention to take forcible possession of the property without further negotiations. His actions are said to have been extremely high-handed. Relations between the Brit h and Russian residents are strained to the breaking point.

LONDON, Jan. 11.—The Calcutta correspondent of the Daily Mail says: While the official statement that no alarm is felt concerning Afghanistan is quit true, I have good reason to believe that the Indian Government has received disquieting information regarding Russian movements in the direction of Persia. Russia is taking aidvantage of the Transvaal trouble to strengthen her armaments and to push forward her outposts along the Persian frontier, with a view to ultimate annexation, a design in which Germany would probably acquiesce in consideration of receiving railway concessions.

LONDON, Jun 13.-The cables have been kept bot since last night when reports, seemingly authentic, reached here to the effect that 75,000 Russian troops had left Triflis, Trans-Caucasia, for Baku The report added that the troots would proceed to Konschtka, the frontier station of Afghanistan. The officials of the War Office decline to discuss the report nor will they admit that they have taken steps to verify it. Nevertheless, it is known that the British Embassador at St. Petersburg has been communicated with. The report declares that Rustroops will soon advance to a point nearer than Herat, the occupation of which it is declared hangs on the movement of the British troops in

The situation, taken into consideration with the war in South Africa, is decidedly complex and still nifere dan-gerous. Fully 250,000 Russian soldiers are now gathered close to the British Indian frontier News reached here yesterday that General Yound has erτινεά at Konschtka, and it is known that the Russian squadrons at Port Arthur and the Persian gulf are being strengthened every day There is also a well-defined report that France has sent rush orders to have troops gathered on the frontier, which report seems verified by the fact that the French Embassador to the Vatican has by the generals there, and he loaned notified Pope Leo of the existence of a Franco-Rus papers now say that experts in the War the exclusive influence of Russia in European Turkey and that of France in Asiatic Turkey are to be recognized. printed upon seventy sheets, which It is understood that this agreement was borrowed from the German War was reached during the visit to Paris Department after the situation about of Count Murayieff, the Russian Minister of Foreign Affairs.
